

Integrated NP Pharmacology Curriculum Support

Advanced Pharmacology
&
NP Clinical Rotation Support

Nursing Education for Clinical Excellence

WHY CURRICULUM SUPPORT?

CURRICULUM SUPPORT GIVES YOU THE FREEDOM TO SHARE EXPERTISE INSTEAD OF JUST INFORMATION.

Your students need a firm foundation in advanced pharmacology and expertise in how to apply it in practice. *You don't have time to do both.*

Advanced Pharmacology & NP Clinical Rotation Support

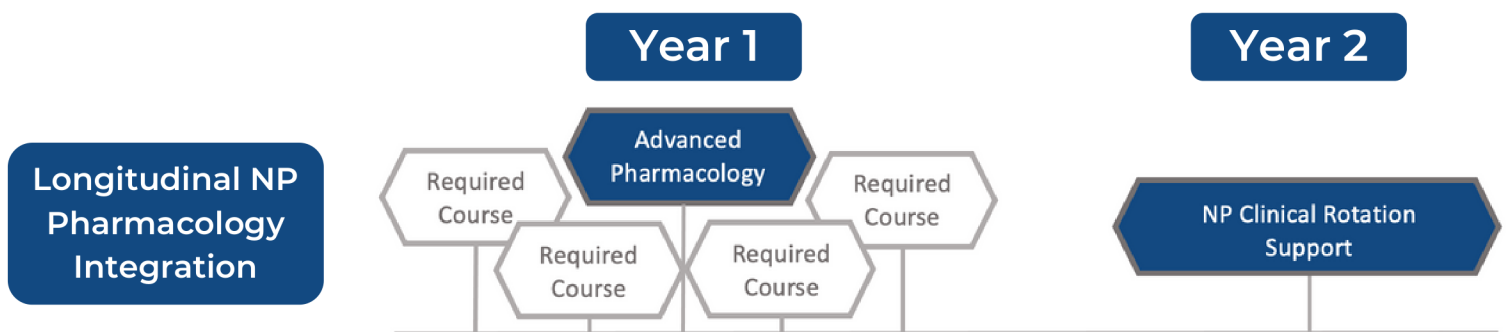

Courses can be used individually or across a two-year program for an integrated approach to pharmacology education.

Courses Include:

- ✓ Lectures
- ✓ eBook
- ✓ Quizzes
- ✓ Admin Reporting

AN INTEGRATED APPROACH TO NP PHARMACOLOGY

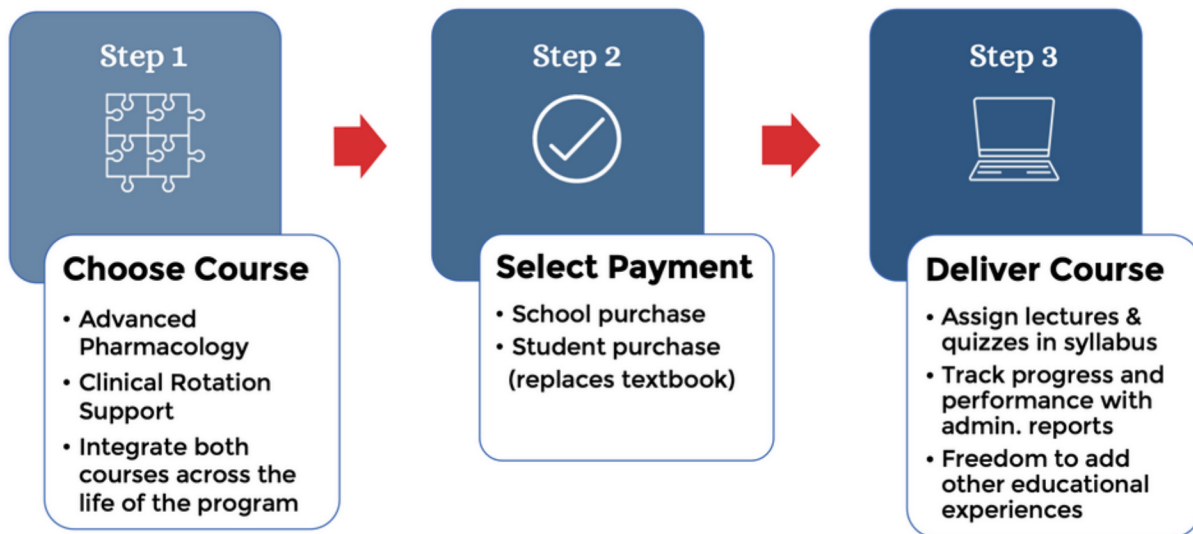

- Our NP curriculum was created by faculty that have been in your shoes and understand the challenges you face and what is at stake.
- High-Yield curriculum provides your students with the comprehensive foundational knowledge they need.
- Your students arrive to class prepared to take on higher-level concepts and learn from you what actual clinical practice is all about.

TIME TO PREPARE YOUR STUDENTS FOR PRACTICE

Your success as an educator depends on the competency of your students. Core knowledge is only half of the equation. They need your engagement and expertise to prepare them for practice.

FLEXIBLE AND EASY TO IMPLEMENT

How much more could you accomplish if all of your students came to class having already completed the core lecture material?

Get a free 30-day trial.

Experience the lectures that can free you to focus on what matters.

SEAMLESS IMPLEMENTATION

High-Yield courses and components make it easy to integrate curriculum support into your course and curriculum.

STEP 1 : CHOOSE THE COURSE(S)

- Advanced Pharmacology Course for NPs
- NP Clinical Rotation Support
- Both courses for an integrated approach to pharmacology

STEP 2 : SELECT WHO PAYS

- Institutional purchase - Greatest pricing discount.
- Student purchase - Replaces the textbook as a required resource.
- Custom option - Institution and Students share course cost.

STEP 3 : DELIVER THE COURSE

Lectures: Students watch core content lectures at home.

Quizzes: End of module quizzes provide self-assessment or graded evaluation of comprehension.

eBook: Lecture notes on-demand and available on any device.

Administrative Reports: Track student usage and performance for accountability and grades.

INTEGRATED PHARMACOLOGY CURRICULUM

Choose to use a single course or both courses to integrate pharmacology across the full Nurse Practitioner program.

Year 1

Advanced Pharmacology for NPs

- 10 Core Topic Modules with lectures
- 10 Quizzes for end-of-module assessment
- Optional lectures for enrichment (no quizzes)

Advanced Pharmacology Modules

Advanced drug class review lectures cover comprehensive, foundational knowledge.

- Foundations of Pharmacology
- Cardiovascular
- Hematologic
- Endocrine
- Infectious Disease
- Pulmonary
- Neurologic
- Psychiatric
- Gastrointestinal
- Dermatologic
- Women's Health
- Optional Special Topics in Pharmacology

Year 2

NP Clinical Rotation Support

- 6 Core Rotation Modules
- 6 Quizzes for end-of-rotation assessment
- Optional lectures in each module for enrichment (no quizzes)

Clinical Rotation Modules

Core therapeutic lectures cover pharmacotherapy for clinical application.

- Family Medicine
- Adult Internal Medicine
- Acute/Critical Care Medicine
- Geriatrics
- Cardiology
- Infectious Diseases

HIGH-YIELD CURRICULUM SUPPORT

Supports your faculty's course goals and priorities.

Advanced Pharmacology for NPs

Course modules offer flexibility for your course.

We provide the time-saving content and reporting you need.

- Faculty determine how to implement course modules in their syllabus and what to assign for graded credit:
 - Lectures completion reports
 - Module Quizzes for grade or self-assessment
- More time in class for educational experiences
 - Time can be used for case studies, projects, or papers
 - Allows faculty to engage with students and share expertise

How much could you accomplish if all of your students arrived to class having already listened to the lectures?

Students learn the core, foundational content at home and arrive to class ready to engage and apply the information.

NP Clinical Rotation Support

Clinical rotations are unpredictable.

Ensure your students get the necessary core content across each rotational location and experience.

- Lecture completion can be required by rotation for a comprehensive approach, or faculty can assign a subset of lectures.

TRUSTED FOR MORE THAN A DECADE

Our curriculum was created by faculty that have been in your shoes and understand the challenges you face and what is at stake.

Our team is dedicated to helping you equip the next generation of nurse practitioners for excellence in clinical practice.

Dr. Busti is unique in that he is a nurse, PharmD and MD. His company provided a wealth of lecture content that is practical and provides great insight into the pharmacological care of acutely ill patients. We began offering the course for the first time last year.

The student feedback has been phenomenal. All students report that the course is difficult, but they are better prepared for the hospital and high acuity practice of the ACNP. Any program would be wise to partner with High-Yield; your students will thank you for it."
