

YOUR FIRST STEPS TO

# STUDYING FOR THE BCPS EXAM

We understand. The BCPS is a TOUGH EXAM with a low pass rate. Why, you ask? Because it was designed to identify pharmacists who can apply concepts at a HIGHER LEVEL OF CRITICAL THINKING AND APPLICATION. **That's why it's imperative you have a proper study plan and method.**

## YOU NEED A PROVEN METHOD

### KNOWLEDGE TRANSFER

To pass a higher-level competency exam, you must know the core concepts (explicit knowledge) and then transfer that understanding to a higher level of complex critical thinking and analysis (tacit knowledge).

### EDUCATIONAL MODEL

Our educational model facilitates this process of knowledge transfer so that you can maximize your acquisition of the higher-level competency required to pass the exam.

## YOU NEED A PROVEN PLAN

### FOCUS ON THE ESSENTIALS

Assess your level of training and core knowledge, giving yourself 6 to 12 months before your exam day to begin preparing.

### TAKE IT TO A HIGHER LEVEL

You must take your essential knowledge to a higher level of critical thinking, analysis, and application through several complex scenarios.

## YOU NEED TO BE EFFICIENT

### TAILOR YOUR LEARNING WITH REAL-TIME ASSESSMENTS

When using the High-Yield BCPS Q-Bank, your "My Performance" identifies your top 5 strengths and weaknesses in real-time, so you can hone your preparation where you most need it.

### SELECT THE TOOLS THAT BEST FIT YOUR LEARNING STYLE

Using any device, choose the study tool that most closely aligns with your personal learning style:

- Q-Banks
- Lectures
- eBooks
- Study Groups

## YOU NEED TO IMPLEMENT YOUR PLAN

### Gaining the Essential or Explicit Knowledge

High-Yield Med Reviews STUDY COMPONENT	6-Month STUDY PLAN	12-Month STUDY PLAN
BCPS Q-Bank Questions to Complete	250 questions per month	125 questions per month
BCPS Online Lecture Topics Watched	40 lecture topics per month	20 lecture topics per month

## YOU NEED TO JOIN A STUDY GROUP

### WE'RE BETTER TOGETHER

Our live, online study group session utilizes cases to integrate the essential knowledge with higher-level concepts, helping you maximize your study time.

**See 2020 Study Groups here.**

### GO THE EXTRA MILE WITH BIOSTATISTICS

Amplify your preparation through this distinct study group focused on the integration and application of EBM, study design, biostatistical analysis, and literature evaluation.

**Learn more here.**
